Dear Michael:

Recently, I received an e-mail publicizing the Abacus Brain Study techniques and including your Letter to Parents on the success you have experienced through these methods.

You are to be commended for working to achieve your full potential and for encouraging others to do likewise.

Congratulations on being in the gifted program at Port Perry High School, and for your plans to teach the skills developed by ABS.

Please accept my best wishes.

Yours truly,

John R. O'Toole, MPP
Durham

Best wishes in all your do's
